

BRUSH CUTTER BRC-28

RENTAL EQUIPMENT

The comprehensive Toro product line-up has expanded with the addition of the 28-inch hydraulic drive brush cutter. This versatile machine is ideal for the rental industry, as performance, durability and usability are key elements in its design. The commercial grade, self-propelled brush cutter allows operators to level brush, tall weeds, saplings and heavy vegetation with ease. The Toro hydro drive brush cutter, featuring a pivoting deck, can handle brush up to six feet tall and saplings up to two inches in diameter.

FEATURES

QUALITY PERFORMANCE

- Larger fuel tank capacity combined with the 28 inch cutting deck increases operator productivity
- The flail blade can handle the toughest of jobs with increased cutting performance
- The pivoting deck makes for easy maneuvering over uneven terrain
- The standard hour meter keeps your machine up-to-date on service needs and back to work

DURABLE AND POWERFUL

- Superior product design, including a high-strength steel deck, 1 3/8 inch spindle shaft and large diameter pulleys optimizes the longevity of the machine
- Sealant-filled, aggressive tread tires provide effective traction for brush removal projects on slopes, ditches or culverts
- Standard electric start and a powerful 14.5 hp* Toro engine
- Improved electric clutch design holds-up against the force of blade impacts

EASY-TO-USE

- Simple, intuitive traction controls ensures both professional and novice operators alike will be able to master
- Two-step blade engagement, coupled with a parking brake enhances usability for the operator
- Knuckle guards and durable rubber deck flaps give added protection during brush removal
- Maneuver this powerful machine in both forward and reverse with one-hand control feature

SPECIFICATIONS

	BRC-28 (23522)
