

FLOOR SCRAPER ATTACHMENT

DINGO® COMPACT UTILITY LOADER ATTACHMENTS

Precision Floor Removal for Interior Jobs

Built for interior demolition and renovation, the 30" Floor Scraper attachment helps crews remove tile, carpet, adhesives, and tough flooring materials efficiently. With durable blade technology, adjustable down pressure, and compatibility across the Dingo lineup, it delivers controlled, consistent performance—helping crews reduce manual effort and keep indoor projects moving with less disruption.

POSITION 1

POSITION 2

POSITION 3

ADJUSTABLE REMOVAL POWER

Three-position adjustability delivers the right leverage and down pressure for everything from carpet to hard-to-remove adhesives and tile.

EDGE-TO-EDGE SCRAPING

Offset blade holder capability allows operators to scrape tight along walls and edges, reducing missed material and cleanup work.

BUILT FOR INTERIOR WORK

Designed for use with eDingo machines, it supports controlled performance in indoor environments while reducing manual labor and keeping jobs on schedule.
