

TREE CARE ATTACHMENTS

DINGO® COMPACT UTILITY LOADERS

Branch Manager® attachments* are developed specifically for tree care site needs from start to finish. From tree removal and maintenance, to job site clean-up, Branch Manager attachments improve efficiency, reduce labor, and simplify complex tasks on job sites.

Log Grapple TORO MODEL 23137

The original mini skid steer log grapple by Branch Manager Attachments with Hardox® wear plate in the body and arms. This model has the upgraded "Pro" hanger with Saw Scabbards, Rope Bollards, and Receiver Hitch Included.

attachment model shown is 23137

Log Grapple PR TORO MODEL 23138

The original mini-grapple by Branch Manager Attachments with Hardox wear plate in the body and arms. Hydraulic Rotation allows you to have greater precision over pick & place operations with your machine. This model has the upgraded "Pro" hanger with Saw Scabbards, Rope Bollards, and Receiver Hitch Included.

Log Grapple Rake TORO MODEL 23141

This rake fits the Branch Manager Mini Grapples and is designed for professional tree service companies that want to save hours on removal cleanups. Great for sweeping up stump chips, rakings, pine needles, rocks, or anything you'd rake by hand.

Log Grapple Clamshells TORO MODEL 23148

"Clamshells" easily attach to your Branch Manager Mini Grapples with pins for easy pick-up of stump chips, rakings, mulch, loose dirt, and gravel. Customers that have added this to their Branch Manager Grapple report that stump clean-ups have never been easier, which means no more dozing buckets on lawns!
