COMPATIBLE

Get twice the productivity of a 21" walk-behind aerator with the new 24" stand-on model. Built for the demands of busy landscape contractors, it packs the power of a larger model in a smaller footprint so you can maneuver with ease. Now you can reach areas that could previously only be accessed by a walk-behind unit, saving time on projects both large and small.

MANEUVER IN TIGHT SPACES

With a compact design that fits through a standard 36" gate.

NAVIGATE WITH EASE

With intuitive controls that function a lot like a mower, saving time.

GET A SMOOTH RIDE

With the floating operator platform that isolates vibrations.

KEEP CONTROL EASY

With a foot pedal to raise and lower tines.

VARY PLUG LENGTH ON THE FLY

By finely tuning the hydraulic system. It applies up to 1,200 lbs of down pressure on the tines to pull up to 5" cores.
