

TORO®

It's Tee Time!

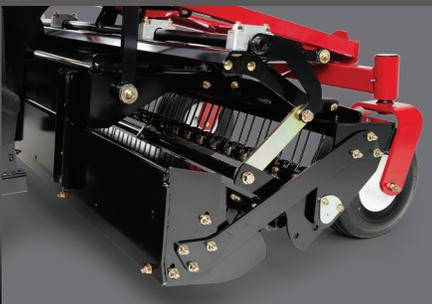

FIELD PRO® 6040

FEATURES

- MultiTool™ Box Grader is nearly 6 feet (182 cm) wide for efficient and accurate grading. With the Box Blade Extension Kit, grading width can be increased to nearly 8 feet (244 cm) wide.
- Optional Laser Level system precisely grades to a 1/8" (3 mm) accuracy by continually actuating the box blade to desired settings, creating an extremely consistent surface.
- A purpose-built rugged design integrates ease of operation and superior all-around visibility to ensure fast, professional results.

Optional Laser Grading Kit

MultiTool Box Grader

When tee boxes require renovation, achieving a consistent surface is simplified with the Toro Field Pro 6040. Preparing the surface is fast and accurate with the mid-mount MultiTool Box Grader, the Laser Level system, and a variety of optional rear-mounted drags and rake attachments. Combined with the rigid frame, commercial strength hydraulics, and powerful Kohler® engine, any operator can transform well-worn tees to precise launch pads that golfers will appreciate.
