Pro Sweep™ 5200

Say goodbye to cores.

Pro Sweep 5200

- 132 cm (52") sweeping width
- Ground-following design
- Tow behind and offset collection positions
- .71 cu. metres (25 cu. ft.) hopper
- High-lift dump system

Aeration cores and other turf debris need to go somewhere. And that somewhere is the hopper of a Toro® Pro Sweep™ 5200. Faster and more effective than traditional methods of collecting cores and debris, the 5200 sweeps greens, sports fields or any turf clean. If you're looking to bring efficiency into your turf sweeping process, and return to play sooner, invest in a Toro Pro Sweep 5200.

Shown with optional windrow kit.

Count on Innovation

A clean sweep.

The Pro Sweep works remarkably well on undulating terrain. That's the result of a floating sweeper head that pivots side-to-side and a sub frame that pivots front-to-back. Together they allow the sweeper to accurately follow contours on uneven terrain.

More time to play.

The Pro Sweep saves time and labour costs while getting your field or golf course back into play faster. By sweeping up cores almost as fast as you pull them, turf can be topdressed and ready for play in no time. The offset collection position keeps the tow vehicle from running over cores before they reach the sweeper. In addition, the windrow kit pushes cores away from the Pro Sweep's tyre so you won't crush them. The hopper holds enough cores to sweep most greens and features a high-lift dump so you only need to handle material once. An innovative adjustment system allows for fast, precise brush height adjustment to accommodate a variety of turf conditions.

The standard control box mounts in the operator area of your Workman.

Add the optional electric offset to shift between the transport position and the collect position without stopping.

Accessories

Windrow kit

Tyre scrapers

Electric offset arm

Jack stand

Specifications for Pro Sweep™ 5200

Power & Towing Requirements

Utility vehicle: 30.3 l/min (8 GPM) @ 2000 psi

Tractor: 18.6 kW (25 hp) minimum

Hitch: 19 mm (3/4") hitch pin with safety linchpin (Workman® vehicles require the heavy-duty draw bar and high-flow hydraulics kit.)

Collection System

Type: Hydraulic-powered rotary brush

Sweeping width: 132 cm (52")

Roller: 152 mm (6") diameter, full-width, adjustable

Ground following: Floating brush housing

Collect position: Tow directly behind or offset to the side of the vehicle, optional electric tongue offset kit

Traction: Pivoting sub frame allows for positive tongue weight

Hopper

Capacity: .71 cu. metres (25 cu. ft.)

Lift: Hydraulic powered lift cylinder, high-lift

Operating Speed

Forward sweeping: 0-6.4 km/h (0-4 mph), infinitely variable

Forward transport: 0-24 km/h (0-15 mph)

Dimensions & Weight

Height: 173 cm (68")

Length: 368 cm (145")

Width: 221 cm (87")

Dump height clearance: 173 cm (68")

Weight: 686 kgs (1,512 lbs.) empty

Tyres: 26.5 x 14-12

Options

Electric offset, windrow kit, brake kit, tyre scrapers, jack stand

Warranty: Two-year, comprehensive
