

# STUMP GRINDER

FOR DINGO® COMPACT UTILITY LOADERS

The operator direct line of sight to the cutting blade increases accuracy and efficiency in removing stumps.

- Incredible hydraulic power (up to 12 gpm @ 3000 psi) it will make powder of the toughest stumps. Grinds them down as far as 16.5" below grade.
- To get rid of traveling roots, position the wheel index at a 30° angle which means you grinding more root, less turf, increasing productivity
- Index position of blade adjusts up to 30°, allowing easy removal of roots
- Cuts up to 16.5" below grade, ensuring remains will be covered adequately
- Great for: tree stump removal; hard to access areas such as fenced-in back yards, near buildings or landscape objects; eliminating roots with the index wheel of 30°

## SPECIFICATIONS
