

# SPATIAL ADJUST™

CONTROL WITH CONFIDENCE

**Golf Irrigation**

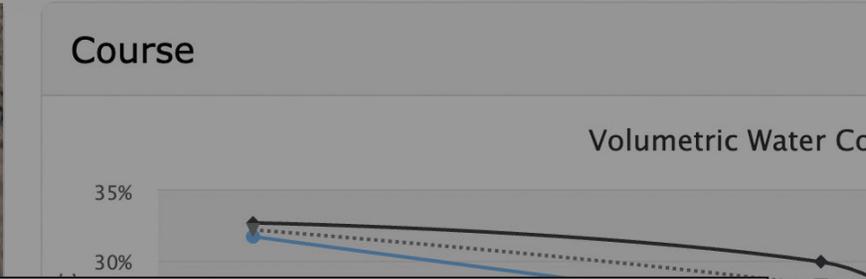

# Effortless Insight. **Everyday Impact.**

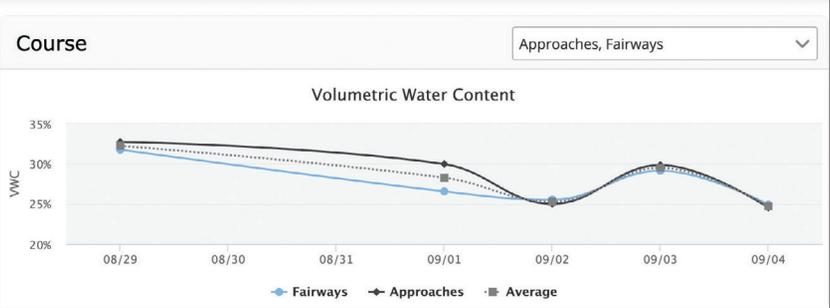

You know your course better than anyone. But even the best instincts benefit from better data.

**Spatial Adjust™** turns everyday mowing into a powerful irrigation ally—using TurfRad sensors to gather thousands of soil moisture readings and translate them into clear, confident decisions.

# Respond to What Your Turf Needs — Now

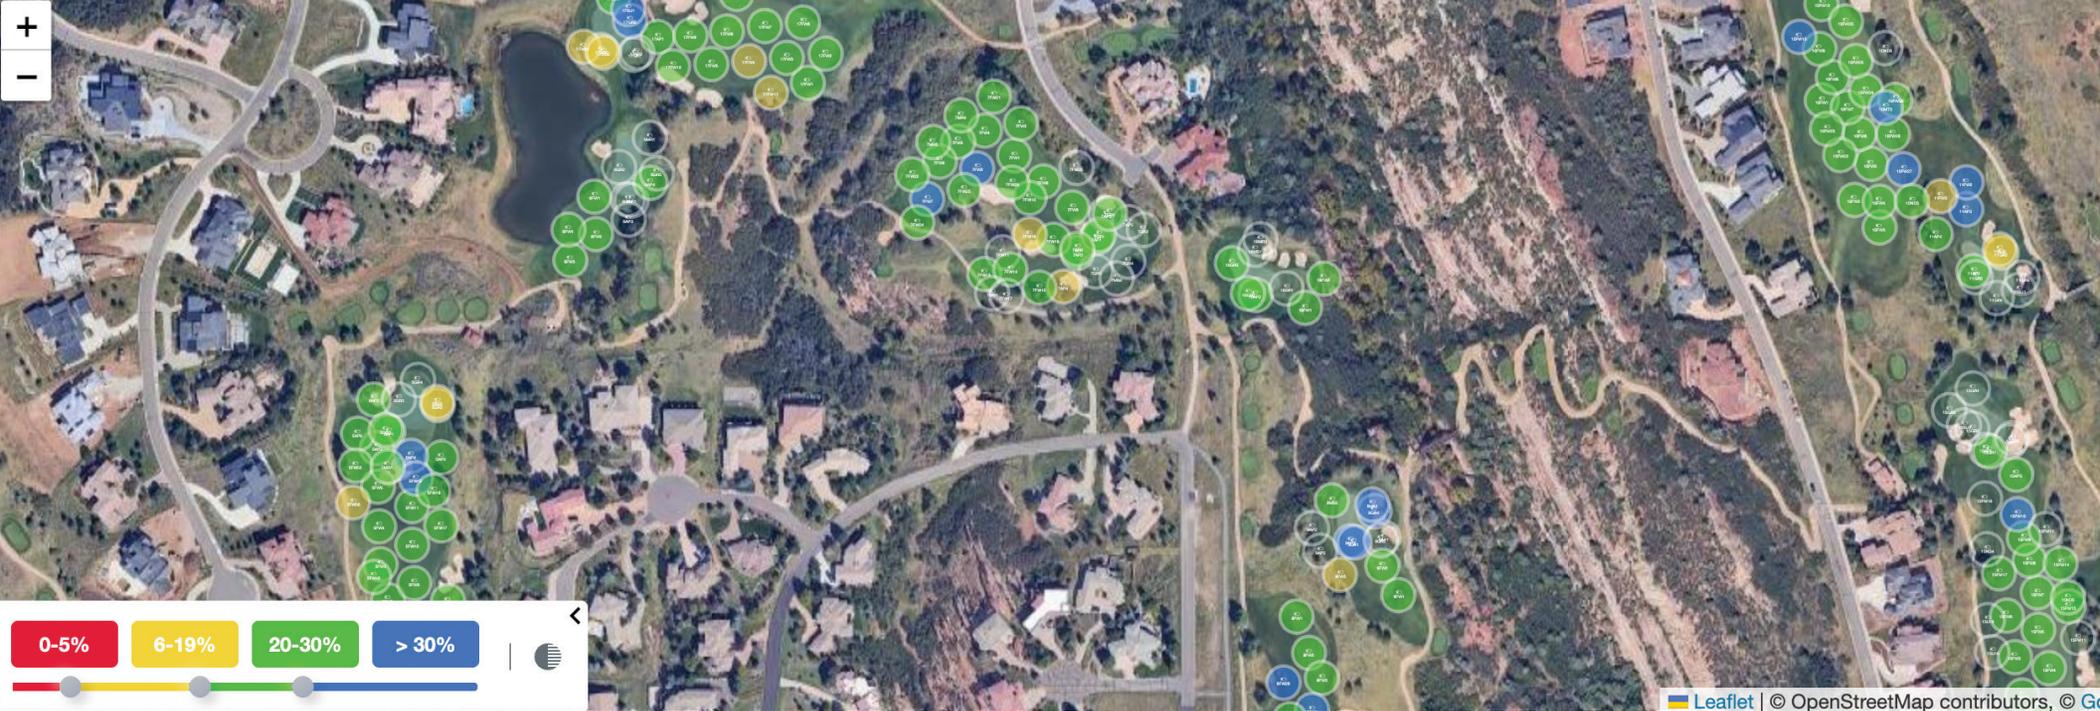

**Spatial Adjust™** doesn't just monitor—it reacts. It reads your turf's current conditions and helps you adjust irrigation with confidence. No more waiting. No more wondering.

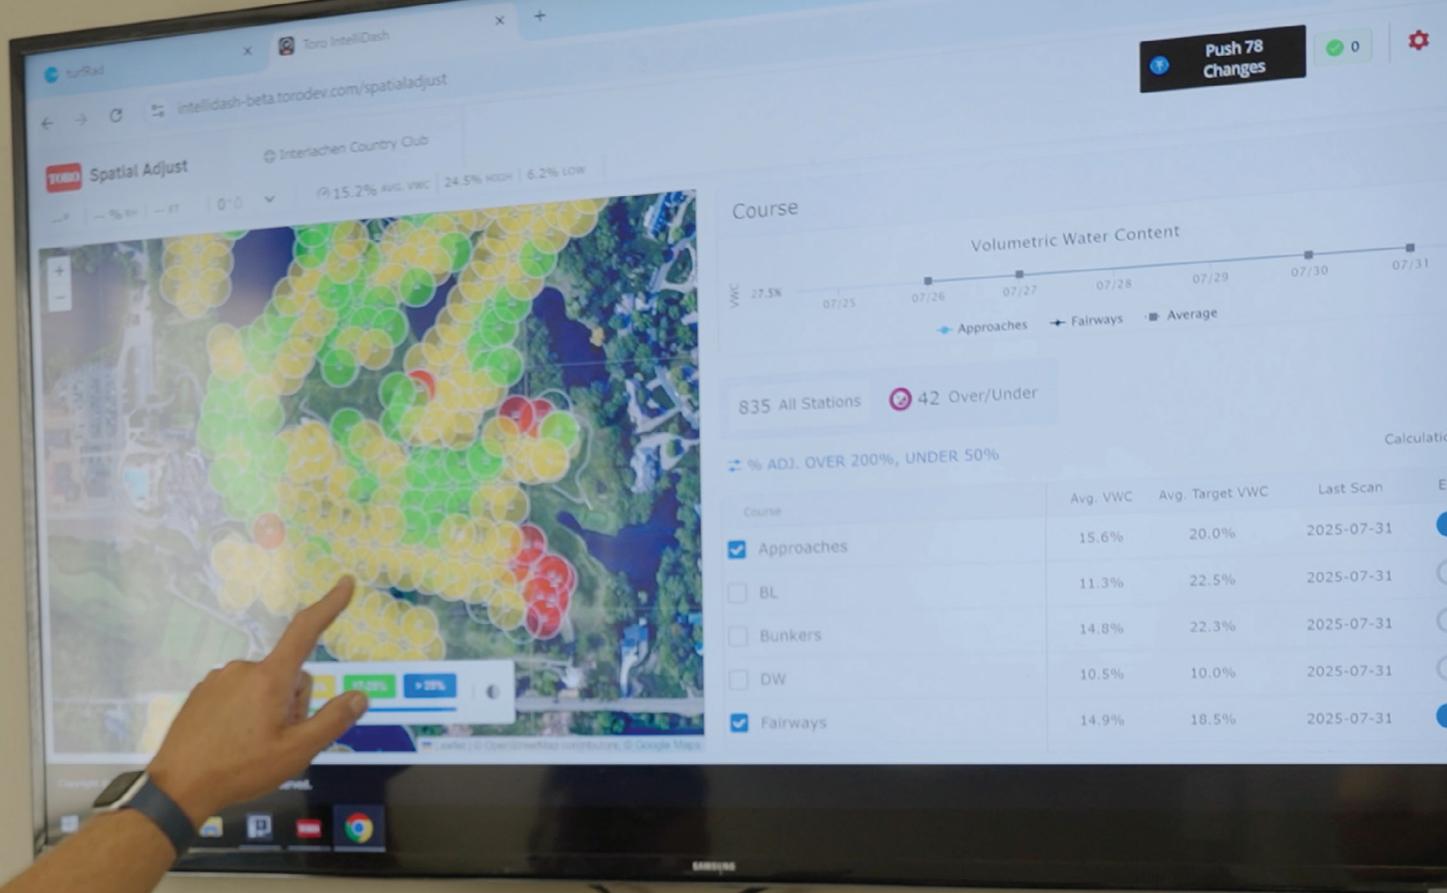

**TORO®**

# Let Your Crew **Do More** – Without Doing More

Your team's already mowing. **Spatial Adjust™** uses that routine to collect data—no extra steps, no extra staff. It's built into what you're already doing.

# You're in **Control**

**Spatial Adjust™** makes suggestions. You make the call. Every adjustment is superintendent-approved—because no one knows your course like you do.

**TORO®**

# Built for Superintendents

- **Works with Your Existing Toro® Equipment**

Compatible with Toro fairway mowers and Lynx® Central Control systems  
(Lynx 8.2 and Lynx Drive).

- **Access Through IntelliDash™**

Spatial Adjust is available via IntelliDash—Toro's centralized dashboard  
(Requires an active NSN® subscription)

- **Quick Setup, Ongoing Support**

Get started fast with help from Toro or TerraRad. Includes 24/7 NSN support

- **Future-Ready**

Designed to grow with your course and evolve with Toro innovations

The TORO logo is displayed in white, uppercase letters within a red rounded square.

TORO

REELMASTER

5064

CROSSTRAX  
AWD

A wide-angle photograph of a golf course during the day. In the foreground, a green golf cart is driving across a well-maintained fairway. To the right, there is a sand trap with a flag on a green. The background features a rocky hillside and several tall pine trees. The lighting suggests it's either early morning or late afternoon, with long shadows cast across the grass.

***“We’ve seen more consistent fairways with uniform firmness and color, and no tracking from equipment tires.”***

*— Ravenna Country Club*

## Real Results from Real Courses

*“We’re using **100,000 gallons less per night** — about a **15–20% water savings.**”*

— Austin Country Club

*“It would **pay for itself within two years** through water and electrical savings.”*

— Olympic Hills Golf Club

*“We used to send multiple employees out for manual sampling. **Now, one person can cover more area with the tool.**”*

— Paradise Valley Country Club

**TORO**

## How It Works

- **TurfRad™** sensors mounted on Toro® fairway mowers collect soil moisture data during routine mowing.
- **Spatial Adjust** processes this data and integrates with Lynx® Central Control—delivering actionable irrigation recommendations across hundreds of sprinkler heads with just a few clicks.
- **Access everything through IntelliDash™**, Toro's centralized dashboard.
