Multi Pro® WM

**Leading technology, proven
reliability, unsurpassed accuracy.**

TORO.

Count on it.

Engineered to your Specifications

The new Multi Pro WM sprayer accessory for the Workman HD and HDX is the culmination of extensive customer input and exhaustive operator field-testing. Toro's sprayer development team spent countless hours conducting in depth market research to better understand customer desired attributes and outcomes. From the customer research, the team designed this new sprayer and then spent numerous hours in the field at sports fields and courses just like yours testing every aspect of the spray system for durability, performance, precision and accuracy. The result is the new Toro Multi Pro WM, which features many new innovative features that enhance the precision and control of the spray system. We think you will agree that Toro has simply built a better sprayer.

Advanced Precision and Operator Control by Design

Every facet of the Multi Pro WM is designed to give the operator unrivaled and intuitive control of the spray system. The Multi Pro spray system delivers unsurpassed spray accuracy and precision, and the new Quick Find Console® considerably improves the operator interface with the sprayer controls.

The Toro Multi Pro WM is ready to perform when you need it most. Invite your Toro Distributor to demonstrate how this sprayer can enhance your spraying program.

Quick Find Console®

See page 6 for details.

Why put your trust in Toro Multi Pro Sprayers?

Your friends and colleagues already have.

Industry Leading Market Share

The innovative and high performance Multi Pro turf sprayers achieved the highest market share of any major turf sprayer manufacturer.

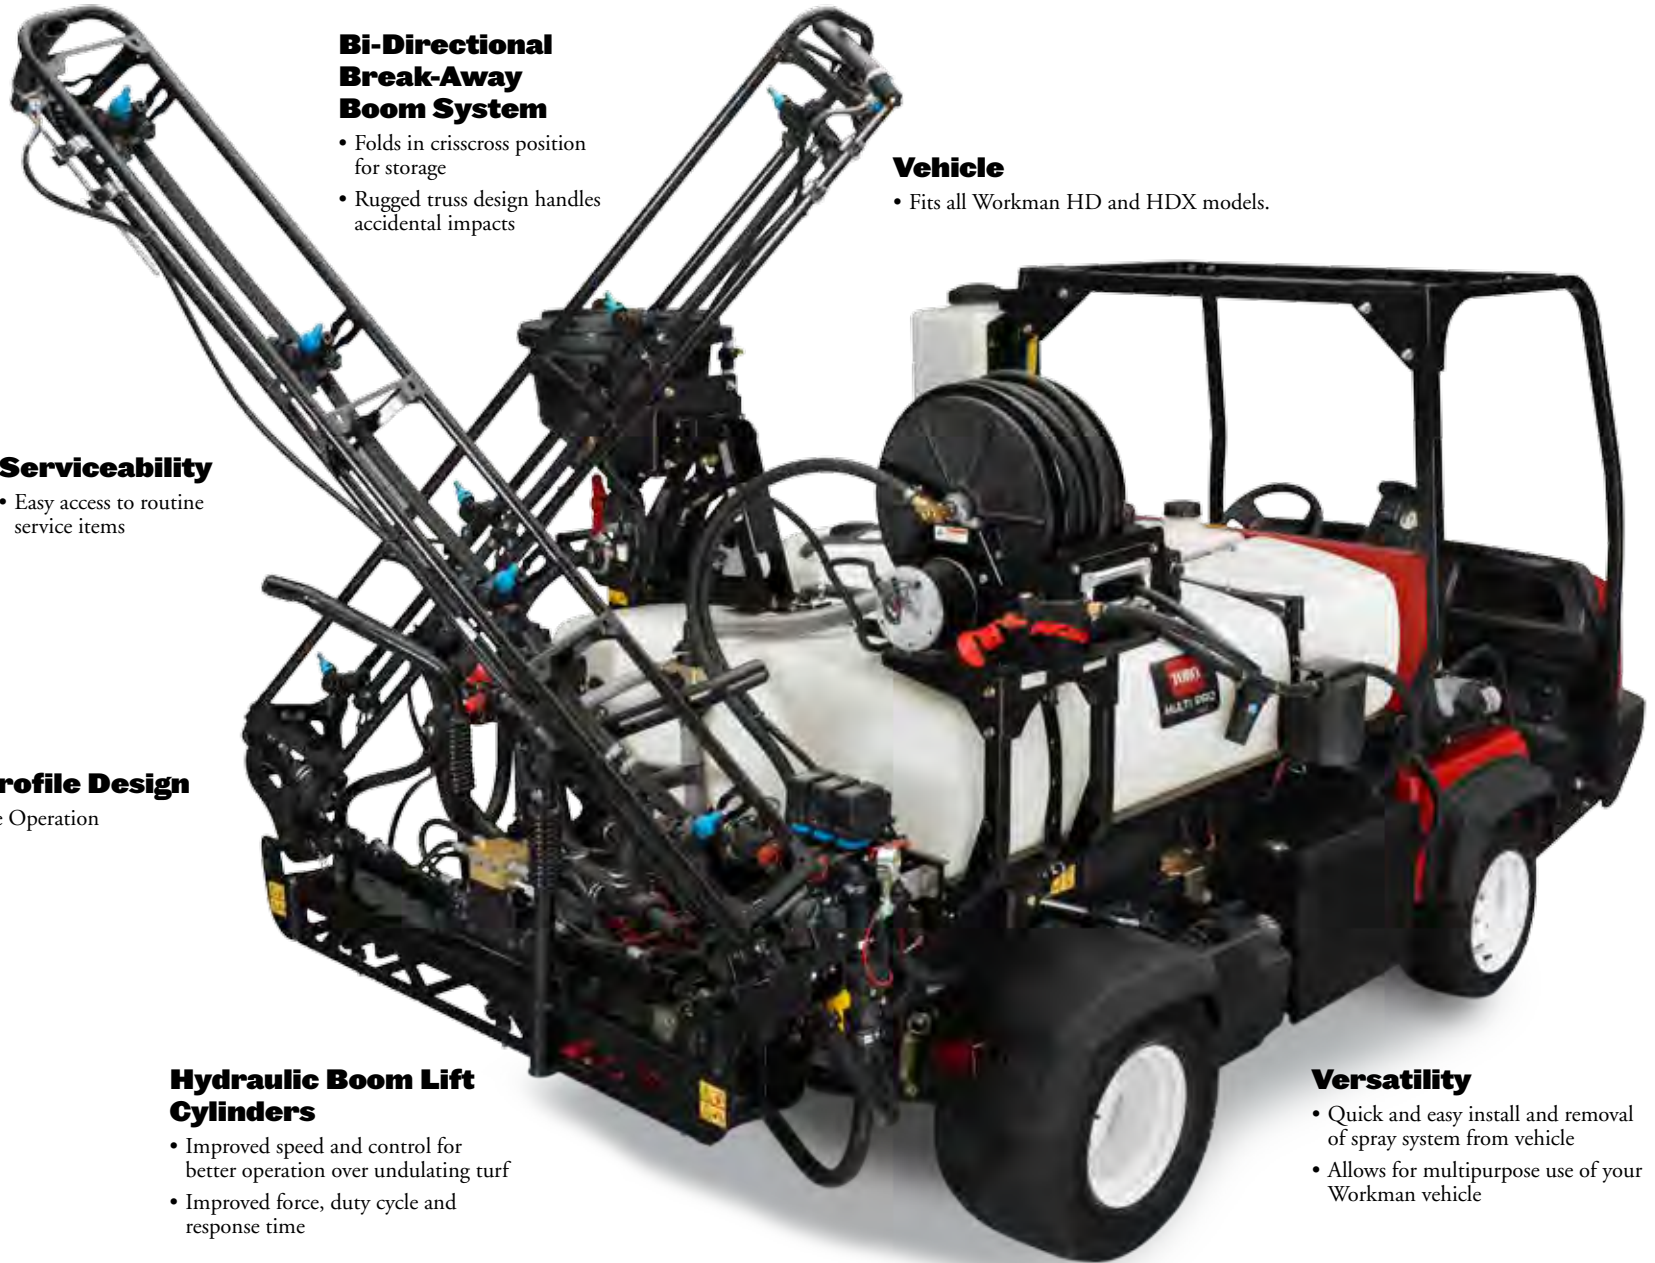

Industry Leading Customer Satisfaction Rating

With proven quality and reliability, Toro Multi Pro achieved the highest satisfaction rating of the products available for other turf sprayer manufacturers.

Industry Leading Purchase Consideration.

Toro Multi Pro sprayers achieved a significantly higher number of mentions when superintendents were asked what turf sprayer brand they would consider purchasing

Versatile. Accurate. Precise.

Bi-Directional Break-Away Boom System

- Folds in crisscross position for storage
- Rugged truss design handles accidental impacts

Vehicle

- Fits all Workman HD and HDX models.

Serviceability

- Easy access to routine service items

Low-Profile Design

- For Stable Operation

Hydraulic Boom Lift Cylinders

- Improved speed and control for better operation over undulating turf
- Improved force, duty cycle and response time

Versatility

- Quick and easy install and removal of spray system from vehicle
- Allows for multipurpose use of your Workman vehicle

Exclusive Six-Diaphragm Pump

An industry first! This unique pump produces up to twice the flow of 2 diaphragm pumps to simultaneously achieve higher spray volumes and aggressive agitation needs. While spraying, the pump continuously agitates tank contents for a homogeneous mix and more accurate application of chemicals from start to finish, saving chemical costs and ensuring efficacy. This pump features a dry sump which eliminates the risk of oil contamination and a self-priming design that can be run dry without damage.

New 200 Gallon (757 Liter) Tank Four Agitation Nozzles

A smooth elliptical tank design prevents chemicals from building up in 'dead spots.' Four side-mounted agitation nozzles continuously 'roll' the tank contents for a thorough, homogeneous mix. This dynamic action suspends wettable powders and water-soluble granules to achieve industry-leading mixing and spray out.

Toro Multi Pro WM Industry Leader Checklist

Agitation Performance

- New six-diaphragm pump
- New 200 gallon (757 liter) chemical tank
- 4 side-mounted jet agitation nozzles
- Redesigned and enhanced plumbing system and components

Spray Performance

- New Info Center
- Ground Proportional drive
- New air inclusion nozzles
- New Drift Reduction Boom Shroud

Productivity

- New Clean Load Educator Kit
- New 20 gallon (75.7 liters) Fresh Water Rinse Kit
- Ultra Sonic Boom Leveling System

Quick Find Console®

The new Quick Find Console® helps the operator to intuitively find boom and actuator switches with the palm of their hand and places command of all key sprayer systems at the operator's fingertips for ease-of-use and improved control.

The analog pressure gauge and the new Info Center are smartly situated to keep all key sprayer data in the operator's line of sight.

Attachments

Clean Load Eductor Kit - 41210

This on-board mixing station features a venturi system and allows rapid and safe loading of any chemical without the need to first mix into a slurry. Incorporates a built-in bottle wash nozzle.

20 Gallon (75.7 liters) Fresh Water Rinse Kit - 41208

Nesting inconspicuously in front of the main tank, this system includes a separate electric pump, plumbing and dual rinse nozzles. At 6.7 gallons (25.2 liters) per cycle, it has on-board capacity to complete a triple rinse process.

Drift Reduction Boom Shroud - 41602

Extends 12" (30.5cm) below the standard boom to minimize chemical drift in breezy conditions while retaining full boom system functionality.

Ultra Sonic Boom Leveling Kit - 41219

New sonar sensors attached to end of the booms automatically maintain proper spray height over undulating turf.

Electric Pivoting Hose Reel Kit - 41211

150' (45.7m) of hose for hand or walk spraying applications. Convenient electric powered rewind. Spray gun has an adjustable nozzle from stream to fan.

Pro Foam Marking Kit - 41232

New "turn signal" type control conveniently placed on the left side of the steering column provides for fingertip control.

Jack Stand Kit - 41216

Hand crank jack stands assist lifting the sprayer off the Workman frame.

Spray Nozzles

Full range of contact, systemic and low drift nozzles are available. New air induction nozzles provide improved accuracy, more uniform droplets, reduced drift and even coverage.

Hahn Spray Bug

The Hahn Spray Bug walking spray system brings precision application to walk-spraying greens and other hard to reach areas. It is an electric-powered, self-propelled, self-contained covered boom sprayer with a 15-gallon tank, 80" boom and complete spray system.
