

QuickGroom™ 700

GROOMER

FEATURES

- Gentle on Turf – *soft or standard bristles, suitable for any application and surface*
- Multiple Towing Options – *easily towed by any tractor or utility vehicle*
- Lightweight, Simple Design – *redistributes and incorporates topdressing materials*
- Brushes Twice on Every Pass – *triangular design is more effective than straight brushes*
- All-Steel Frame – *durable and reliable for many years of use*

Effective Natural or Synthetic Turf Grooming.

For brushing and striping of natural and synthetic turf, nothing beats the proven Bullseye QuickGroom 700. The highly-effective triangular arrangement of the brushes will redistribute topdressing material side to side while standing up and grooming each grass blade or turf fiber for an attractive and realistic finish to both natural and synthetic turf. Long-wearing poly-bristles quickly and efficiently brush surface infill or topdressing to an even and level finish.

QuickGroom™ 700*

For brushing and striping of natural and synthetic turf, nothing beats the proven Bullseye QuickGroom 700. The highly-effective triangular arrangement of the brushes will redistribute topdressing material side to side while standing up and grooming each grass blade or turf fiber for an attractive and realistic finish to both natural and synthetic turf. Long-wearing poly-bristles quickly and efficiently brush surface infill or topdressing to an even and level finish.
