DINGO® TX 1000 TURBO

TRACKED COMPACT UTILITY LOADER

One Compact Machine That Keeps Jobs Moving

When crews need to take on heavier work without slowing down or bringing in more equipment, the Dingo TX 1000 TURBO fits the job. Built for professionals who want one compact machine to handle demanding tasks, it helps teams stay productive in tight spaces and across long days. From loading and attachment driven work to cleanup and material handling, it supports efficient workflows and confident performance from start to finish.

Key Specifications

- 1,000 lb ROC
- 81" hinge pin height
- 24.7 HP Yanmar® engine

BUILT FOR DEMANDING WORK

Takes on heavier tasks without forcing crews to size up equipment, keeping productivity high on tough jobs.

KEEPS CREWS MOVING

Smooth, consistent operation helps reduce fatigue so crews stay productive through long workdays.

WORKS IN TIGHT AREAS

Maneuvers easily around trucks, buildings, and obstacles on crowded or space-restricted jobsites.
