

Lynx Smart Field Interface (LSFI) Introducing the next generation of field interface controllers from Toro®. This innovative product represents the combination of legacy RIU and FIU products into one smart device providing an intelligent interface platform for all golf irrigation systems. Leveraging ethernet connectivity, the LSFI can be easily located anywhere there is a LAN connection. Additionally, the color touch screen makes set up and use easy and intuitive. The new field interface combines all needed functions for all Toro hardware platforms including OSMAC®, Lynx Smart Satellite, Lynx Smart Hub and hand-held remote Interface (HHRI) into one device. The new LSFI is available in multiple configurations including two wirelines, and dual radios at its top level. This helps simplify system design and the need for multiple pieces of hardware for advanced functionality. The LSFI is compatible with legacy Toro systems and ideal for new system designs.

## FEATURES & BENEFITS

- New ethernet connectivity allows for remote locating of device to maximize radio performance
- Large color touch screen with intuitive graphic user interface
- Communication Activity screen shows TX/RX activity for all applicable channels
- Provides control of your system while you're on the go
- Provides both hand-held control and central-to-satellite/hub communication
- Designed to operate continuously, 24/7
- Interfaces with your Lynx Central Control without the burden of recurring network costs
- Tailored to fit your application with programmable selections for:
  - Digital radio communications
  - Multiple wireline options
  - OSMAC® Base Station and hand-held remote interface modes
  - Independent transmit/receive UHF frequencies
- Functions as a replacement for all applications of FIU, RIU and older OSMAC base stations

### Specifying Information—Lynx Smart Field Interface

Model	Description	Replaces
LSFI-S	1 Wire Line	FIU-2010
LSFI-SS	2 Wire Line	FIU-2020
LSFI-SK	1 Wire Line, 1 HHRI Radio	New Model
LSFI-SR	1 Wire Line, 1- Digital Com Radio,	FIU-2011DR
LSFI-R	1- Digital Com Radio,	New Model
LSFI-RK	1- Digital Com Radio, 1 HHRI Radio	New Model
LSFI-SRK	1 Wire Line, 1- Digital Com Radio, 1 HHRI Radio	New Model
LSFI-SSR	2 Wire Line, 1- Digital Com Radio	FIU-2021DR
LSFI-SSK	2 Wire Line, 1 HHRI Radio	New Model
LSFI-SSRK	2 Wire Line, 1- Digital Com Radio, 1 HHRI Radio	New Model
LSFI-K	1 DTMF Radio	RIU-01
LSFI-KK	2 DTMF Radio	RIU-02
